EDUCATION

ABES Engineering College — B.Tech, Computer Science <i>Ghaziabad, India</i>	Jul. 2023 – 2027
12th Grade — Science (PCM) <i>Percentage: 85.6%</i>	2023

EXPERIENCE

Gradwise <i>Full Stack Developer Startup Hackathon Project Noida, India</i>	Apr. 2025 – Present
- Built an AI-powered platform providing personalized college and career guidance to students using Node.js, React, and MongoDB. - Integrated AI agents to deliver real-time recommendations based on user profiles, academic background, and career goals. - Participated in Sprinthack 3.0 hackathon, collaborating with a cross-functional team to ship an MVP within 48 hours. - Designed and implemented RESTful APIs with GraphQL endpoints to serve dynamic user data and AI-generated insights.	

PROJECTS

Chat App <i>Real-time messaging application</i>	May 2025
- Developed a real-time chat application enabling peer-to-peer messaging using Socket.io for low-latency bi-directional communication. - Implemented user authentication, message history, and online presence indicators with Node.js and MongoDB backend. - Deployed the application with Docker, enabling consistent environment setup across development and production.	
Notes & Resource Sharing Platform <i>Academic resource platform for students</i>	2024
- Designed and deployed a responsive web platform for students to upload, share, and download academic notes by subject and semester. - Implemented secure user authentication (login/signup) enabling user-specific content management and access control. - Built with a full-stack TypeScript architecture using Node.js, PostgreSQL, and React, with CI/CD pipelines via GitHub Actions.	
Blockchain Smart Contract Projects <i>Solidity / Web3 development</i>	2024
- Wrote and deployed Solidity smart contracts on test networks, implementing token standards and basic DeFi logic. - Explored Web3 integration with frontend using ethers.js, connecting wallets and reading on-chain state from React applications.	

SKILLS

Languages: Java, JavaScript, TypeScript, Solidity
Frameworks & Libraries: Node.js, React.js, GraphQL, Socket.io
Databases: MongoDB, PostgreSQL
Tools & Platforms: Git, Docker, Postman, CI/CD Pipelines

CERTIFICATIONS & INTERESTS

- Sprinthack 3.0 — Participation Certificate
- Hacko Clock, IILM University — Finalist
- Active open-source contributor; regular hackathon participant
